HAMILTON SAFE®

The Hamilton Vault Door

provides tough response to a delicate security requirement

The best vault door must meet the same two requirements made by financial institutions, securities dealers, gem and precious metal traders alike. The door must be tough and it must be architecturally impressive. The Hamilton Vault door meets both demands easily.

- Massive yet pleasing architectural appearance
- Standard size is 36" by 79" clear opening
- Extra-wide, extra-high sizes available
- Maintenance-free stainless-steel construction
- Right- or left-hand swing
- Floor-level threshold
- Stainless-steel, heat-dissipating locking bar runs full height of door
- UL listed dual combination locks
- UL listed 144-hour, three-movement time locks
- Door trim is available in brushed stainless steel or black

Options:

Day gate options include:

- Smoked acrylic glaze
- Polished bar-type grill
- Self-closing
- Custom name option

Optional electric lock allows remote activation of day gate

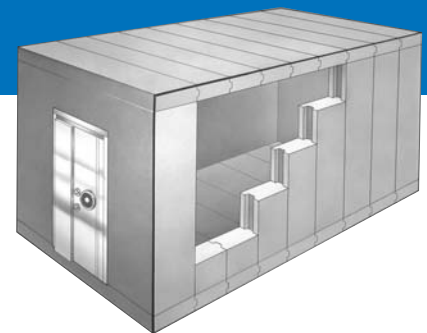

Emergency phone built into door frame

Integrated light switch reduces installation time and costs

Hamilton's Modular Vault saves time and construction costs

Hamilton vault panels allow easy construction of UL rated vaults where weight requirements, or time constraints, are prohibitive. Vault panel construction is lighter and much faster than conventional reinforced concrete construction and panels come in four rating classes including III, II, I and M. For complete details contact our Hamilton Safe dealer.

HAMILTON SAFE®

Manufacturers and providers of the latest in drive-up systems, modular vaults, vault doors, night depositories, physical security containers, alarm systems, safe deposit boxes and video surveillance equipment.
